## #cerámicaeterna

Otro de los valores más beneficiosos de la cerámica es la DURABILIDAD, dureza o resistencia frente a agentes externos como puedan ser los ambientales, rozaduras, golpes, etc.

Another one of the most beneficial values of ceramics is its DURABILITY, hardness, and resistance to external agents such as environmental factors, scratching, blows, etc.

## RECOMENDACIONES DE USO

Nuestros productos han sido concebidos para diferentes usos siendo clasificados mediante ensayos técnicos en seis grupos de acuerdo con su capacidad de resistencia a la abrasión, al desgaste, al ataque químico, etc. LOS MODELOS PRODUCIDOS SON CONTROLADOS A TRAVÉS DE LOS ANÁLISIS EFECTUADOS EN LABORATORIOS EXTERNOS ACREDITADOS Y EN NUESTROS PROPIOS LABORATORIOS.

- A** Baldosas esmaltadas de revestimiento. No recomendadas para suelos.
- B** Para zonas de escaso tránsito con calzado suave, como baños y dormitorios privados, sin acceso directo desde el exterior. Debe evitarse toda abrasión.
- C** Zonas de tránsito moderado, con calzado suave o normal. Por ejemplo todas las estancias de una vivienda privada a excepción de entradas y otras habitaciones que puedan ser objeto de un tránsito considerable.
- D** Zonas de tránsito medio, con calzado normal. Aconsejados para todas las estancias de una vivienda privada (cocinas, vestíbulos, pasillos y terrazas), así como despachos, oficinas y lugares de uso similar. Resistencia media a la abrasión.
- E** Para zonas de tránsito regular, como locales comerciales, hoteles, salas de exposición y tiendas. Resistencia relativamente fuerte a la abrasión.

HIGH TRANSIT, pavimentos especialmente concebidos para uso de zonas de tránsito muy intenso. Altamente resistentes al desgaste.

ICONO · ICON	DESCRIPCIÓN · DESCRIPTION
<b>ACABADO · FINISHED</b>	
	Piezas con acabado "lapatto" brillo. Glossy "Lapatto" finishing tiles.
	Piezas con acabado mate. Matt-finishing tiles.
	Piezas con acabado satinado. Satin-finishing tiles.
	Piezas con acabado brillante. Bright-finishing tiles.
	Tintas de efectos. Effects inks.
	Efecto uniforme del tono. Homogeneous shading effect.
	Bajo efecto destonificado. Slight shade variation.
	Medio efecto destonificado. Moderate shade variation.
	Alto efecto destonificado. Substantial shade variation.
	Piezas con volumen. Voluminous.

## RECOMMENDED USE

Our products have been designed for different uses and, after technical tests, they have been divided into six groups, depending on their resistance to chemical products, abrasion, etc. THE RESULTS OF THESE TESTS HAVE BEEN SPECIFIED IN EACH ONE OF THE MODELS AND HAVE BEEN OBTAINED ACCORDING TO THE ANALYSIS CARRIED OUT BY THE EXTERNAL LABORATORIES AND BY OUR OWN LABORATORIES.

- A** Glazed wall tiles. Not recommended for floors.
- B** For light transit areas with soft soled footwear, such as private bathrooms and bedrooms without direct access to the outside. Any abrasion should be avoided.
- C** For medium transit areas with soft soled or normal footwear, for example, rooms in the living areas of a home with the exception of entrances, and other rooms that may have a lot of traffic.
- D** For medium transit areas with normal footwear. Recommended for all areas of private home (kitchens, entrances, corridors and terraces), as well as offices, consulting rooms and other places of similar use. Medium resistance to abrasion.
- E** For areas of regular transit, such as commercial zones, hotels, exhibition rooms and shops. Fairly high resistance to abrasion.

HIGH TRANSIT, floor tiles especially designed for areas of heavy transit. Highly resistant to wear.

## ESPECIAL COLOCACIÓN PARA LAS SERIES DESTONIFICADAS

Para obtener un excelente acabado estético en cuanto al diseño y apreciar todas sus cualidades, se recomienda que se mezclen baldosas del mayor número de cajas posible antes de iniciar la instalación.

## ESPECIAL COLOCACIÓN GRANDES FORMATOS

Para la instalación de grandes formatos (lado mayor de 60 cm.) y/o rectangulares se recomienda el uso de sistemas nivelados como campanas o cuñas para garantizar una correcta colocación.

El sistema de auto-nivelación se caracteriza por ventajas como el ahorro en tiempo de colocación o el auto-nivelado entre las piezas para conseguir una colocación totalmente plana.

La colocación a rompe-junta de grandes formatos y/o rectangulares nunca debe realizarse en la mitad de la pieza.

Se aconseja que para mantener la estética y evitar dificultades en su instalación, la colocación a rompe-junta no supere el 20% del lado sobre el que se aplica.

## SPECIAL ARRANGEMENT FOR DETONED SERIES

In order to obtain an excellent aesthetic finish regarding design and to appreciate all their qualities, we recommend you mix floor tiles from different boxes before starting to arrange them.

## SPECIAL ARRANGEMENT FOR LARGE FORMATS

For large (largest side of 60 cm.) and/or rectangular formats, we recommend the use of levelled systems such as bells or wedges in order to guarantee a proper arrangement.

The self-levelling system has some advantages such as saving time in arranging the pieces or the self-levelling among pieces in order to obtain a totally flat arrangement.

When laying rectangular formats discontinuously, never do so in the centre of the piece.

In order to maintain the aesthetic appearance and avoid difficulties in installation, we recommend that discontinuous laying does not exceed 20% of the side to which it is applied.

## COLOCACIÓN & MANTENIMIENTO DE BALDOSAS CERÁMICAS CON RECUBRIMIENTO PVD

### (Physical Vapor Deposition)

Este producto debido a su fabricación puede presentar variaciones de calibre, textura, diseño y tono.

Estas variaciones dan al producto una personalidad propia y unas características irrepetibles. Por todo ello, no se admitirán reclamaciones por estos motivos.

Para su colocación recomendamos que las piezas sean manipuladas con cuidado para evitar rayados. También que las piezas estén limpias y secas. Y recomendamos emplear el adhesivo ELASTICER (FIXCER) o similares.

Hay que evitar que los restos de material de colocación endurezcan y queden adheridos a la superficie de las piezas. Para limpiar los restos de material de colocación antes de que hayan endurecido, usar una esponja y abundante agua. En limpiezas sucesivas se recomienda la utilización de una bayeta suave húmeda y jabón neutro, evitando siempre el uso de detergentes energéticos o productos y elementos de limpieza abrasivos, que podrían causar efectos irreversibles en las piezas.

Para cortar las piezas de vidrio, se recomienda emplear un cortador de disco refrigerado con agua.

## PLACEMENT & MAINTENANCE OF CERAMIC TILES WITH PVD COATING

### (Physical Vapour Deposition)

Due to its manufacture, this product can present variations of calibre, texture, design, and tone.

These variations give the product its own personality and unreproducible characteristics. Therefore, no claims will be accepted for these reasons.

For its placement, we recommend that the pieces be handled with care to avoid scratches. Also that the pieces remain clean and dry. We recommend using ELASTICER adhesive (FIXCER) or a similar product.

It is necessary to avoid that the remains of placement material harden and remain adhered to the surface of the pieces. To clean the remains of placement material before they have hardened, use a sponge and plenty of water. In future cleanings, the use of a soft, damp cloth and neutral soap is recommended, avoiding the use of energetic detergents or abrasive cleaning products and elements, which could cause irreversible effects on the pieces.

To cut glass pieces, it is recommended to use a water-cooled cutting disc.
